

TRAVEL INFORMATION COUNCIL

OCTOBER 8, 2020 SPECIAL COUNCIL MEETING

SUBJECT: FRENCH PRAIRIE PAVEMENT REHABILITATION PROJECT - CONSTRUCTION

ORIGINATED BY: Daphnee Legarza, Rest Area Program Administrator

REQUESTED COUNCIL ACTION: Approval of capital funds for the reconstruction of both front truck parking areas and ADA curb ramps within the northbound and southbound French Prairie Rest Area.

BACKGROUND: Having completed the Council approved predesign study, design documents and bidding portions of this project, we are ready to begin the construction phase of this needed improvement to the French Prairie front truck park lots.

The construction of this project entails removing the existing worn and rutted pavement from the front truck parking lots and replacing it with full depth concrete along with the removal and replacement of all existing ADA curb ramps throughout the rest area.

The bid opportunity for this project closed on 9/29/20. We received bids from a total of eight responsive and responsible bidders.

ANALYSIS: The overall costs to complete the work items detailed above are listed in the following table:

French Prairie Pavement Rehabilitation Project - Construction Costs					
PRODUCT OR SERVICE	COMPANY	ESTIMATED COSTS	CONTINGENCY (%)	CONTINGENCY (\$)	ESTIMATED CONSTRUCTION COSTS
Construction Contractor	North Santiam Paving	\$996,347	10%	\$100,000	\$1,096,347

TOTAL ESTIMATED CONSTRUCTION COSTS: \$1,096,347

Construction inspection services and costs were approved by Council at the April 28, 2020 council meeting.

FISCAL IMPACT: The estimated overall costs for all construction related work is \$1,096,347. In addition, all work completed to date and previously approved by Council totals \$119,000. This will bring the estimated total project investment to \$1,215,347.

NEXT STEPS: Prepare updated contract award and agreement paperwork for management approval.
