Sample of Map for GAS/FOOD/LODGING/CAMPING Interstate Logo Signs

The map sketch is vital in determining the eligibility of signing for your facility. The sketch need not be of engineering grade quality; but it should clearly show the location of the facility, all major intersecting roadways, landmarks, and mileposts, as well as the mileage/distance from the bottom of the exit ramp to the facility's driveway. Also indicate any hills, trees or any other major obstruction that might create a motorist safety problem. The clarity of the map may affect the time needed for the qualification review. Please be as accurate as possible to avoid delays.

Fred Meyer, I-5, Exit 30, North and Southbound, Mileage to facility: 1/4 miles
